

Guide to lodging a demolition permit application (form BA5)

If you lodge an incomplete application to the permit authority, it can be refused and you may lose your fees.

These notes are to assist you to complete a demolition permit application form. Further details about the new building approval process are in ‘*The New Building Approval System: A Guide to the Building Act 2011*’. A copy of this publication is available on the Building Commission’s website www.buildingcommission.wa.gov.au.

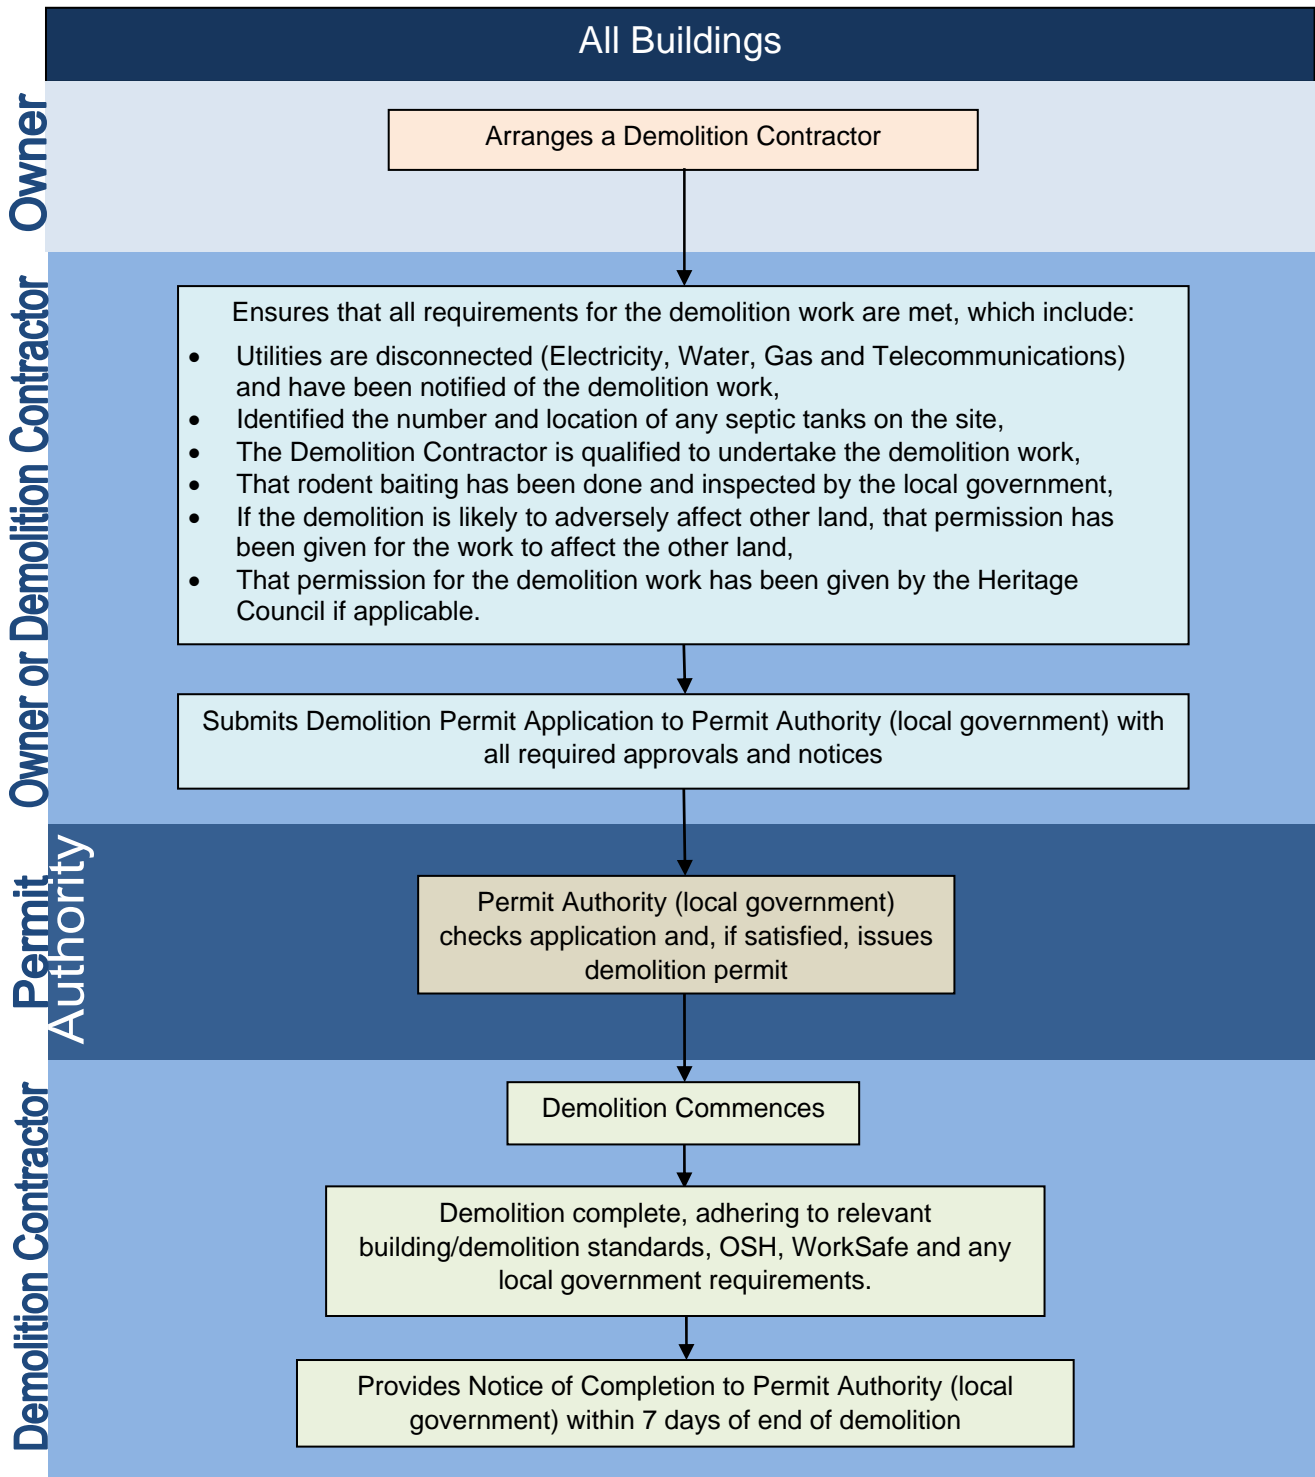

The new system brings many changes to the building approval system. The key changes are:

Old system	New system
Building Licence/Demolition Licence	Building Permit/Demolition Permit
Local Government	Permit Authority (which will be a part of the local government)
Demolition Licence application	Demolition Permit Application
Certificate of classification	Occupancy Permit
Strata (Form 7)	Occupancy Permit - Strata
Building surveyor at local government	Building surveyor at local government or private practice.
No set timeframes	A demolition permit application must be decided by a permit authority within 10 business days.
Application forms from each local government	Standard application forms from the Building Commission only

What's the difference between a demolition licence and a demolition permit?

The system for getting approvals for demolition permits doesn’t change significantly under the new Act. The application still goes to the local government, but there is a 10 day timeframe for them to process the application. The application needs to be complete, and the plans and supporting documents need to accompany it. Applications can be lodged either in hard copy or soft (electronic) copy, and must use the standard Building Commission form, or the electronic/online system where provided by the local government.

The process for demolition permit applications

Filling out the application form

This section assists you in filling out the application form.

The standard Building Commission application forms will be the only forms local governments can use, unless they have an online or electronic system, where the system mirrors the fields on the application forms.

To successfully fill out a certified application form you will need to know, or have:

Description	Explanation
Name of Permit Authority	The Permit Authority will, in most cases, be the local government where the demolition will take place.
Property this application relates to	
Property street address	This is where you put the property address details of the building being demolished.
Local government area (if different from permit authority area)	Sometimes a permit authority can be different from the local government area.
Details of demolition work	
Type of demolition	Please tick relevant box
Description of the demolition work	A short description of what is to be demolished. E.g. 3 storey office building
BCA Class - for demolition permit applications there will be no certificate of design compliance.	The BCA Class is set out in the Building Code of Australia. The common residential Classes are: <ul style="list-style-type: none"> • Class 1a (house, row house, terrace house, town house, villa or the like) • Class 10a (garage, carport, shed or the like) For buildings that don't come under the above Classes, ask the local government for help.
Occupancy Permit Number of building(s) (if known)	Ask the local government if the building to be demolished has an occupancy permit number.
Number of residential dwellings to be demolished	The number of individual homes to be demolished, if any. A single detached home would be '1', a unit development of 4 units would be '4'.
Number of storeys of the highest building	For most homes this will be '1' or '2'. Storeys include any basement/car park, bound by an external wall.
Estimated value of demolition work (inc.GST)	This is generally the contract price (which should include all the relevant components of the building work), including GST. If there is no contract the value is the total cost of all the component parts of the building work (inc. GST). If the application is for variations during demolition, then refer to the Building Regulations 2012, schedule 1, clause 2(2).
Floor area to be demolished	This is the total floor area of all storeys in meters squared, including any basement/car park, bound by external walls.
Site/lot area	Size of land parcel, defined by property boundaries or on the Certificate of Title.

Owners Details	
Owners details	<p>An owner in relation to freehold land is defined as someone who is the registered proprietor of the land, or the State, or a person who has either:</p> <ul style="list-style-type: none"> • a leasehold interest, that allows them to undertake building work, • An interest as purchaser under a contract, • A freehold interest in the land, <p>EACH owner of the land must sign the application form. This is to ensure that all owners know what is happening to their land.</p> <p>Owners can authorise someone else to sign on their behalf. The person who is authorised to sign on behalf of the owner must provide evidence of the legal authorisation.</p>
Demolition Contractor Details	
Demolition contractor details	The demolition contractor must sign this section. If the demolition contractor is a corporation then an officer or agent can sign.
Applicant Details	
Applicant details	The applicant can be anyone, most likely the builder or owner. If they are the owner or demolition contractor, they don't need fill in their details again.
